

Marko Lošić

QA ENGINEER · TEST AUTOMATION

QA Engineer with 6+ years of experience in manual and automated testing of web applications, mobile applications and browser extensions. Builds test suites in Cypress and Playwright, writes test plans and cases, and works closely with cross-functional teams to ship reliable software. Also an Oracle APEX developer with SQL and PL/SQL experience.

EXPERIENCE

QA Engineer

Jun 2022 – Present

Bravo System · Banja Luka

- Manually test web applications, mobile applications and browser extensions to ensure high quality across releases.
- Build and maintain automated tests in Cypress and Playwright, improving the efficiency and reliability of the QA process.
- Work with cross-functional teams to define test requirements, write test plans and execute test cases.
- Perform thorough testing and debugging to identify defects and ensure smooth functionality.

QA Engineer & Oracle APEX Developer

Jan 2020 – Jun 2022

Krajina Klas · Banja Luka

- Built the team's QA process from the ground up.
- Developed automated tests with Cypress and Playwright, improving the efficiency and reliability of the QA process.
- Performed functional, integration and regression testing to ensure application reliability and stability.
- Contributed insights and suggestions during development to improve software quality.
- Designed and developed database-driven applications in Oracle APEX.

EARLIER EXPERIENCE

Category Manager · Tropic, Banja Luka

May 2019 – Jan 2020

Managed the technical and electrical product category: product selection, pricing, inventory and supplier negotiations, backed by market research.

School Teacher · OŠ Grahovo, Bosansko Grahovo

May 2018 – May 2019

Planned and delivered engaging lessons for first-grade students.

Technical Support Agent · Telemach, Banja Luka

May 2014 – May 2018

Supported internet and EON application users with troubleshooting, and led a team of support agents.
